## How to score each category

**Song:** Well, it is a “song contest”. Could you dance to it? It is catchy? Is a banger? Does it give you the feels?

**Performance:** This is an overall performance score. This is all about your gut. Did it blow you away, in either a good or bad way?

**Staging:** Did the performer climb something? Did a singer fly across the arena? Was a giant digital screen involved somehow?

**Dance and/or outfits:** More often than not, both elements are to distract from the song. But this is a vital, vital category.

**The element of surprise:** You’ll know it when you see it...
