

# Watch and stream on **all** **your** **screens**

Welcome to telly, anywhere. Our fibre-powered Virgin TV 360 experience brings together all your screens, favourite channels and apps, so you can seamlessly watch and stream the telly you love, at home and on the go.

## Profiles

Profiles on your 360 box and Go app mean you can carry on watching where you left off, jump to your favourite channels, and make sure your personalised recommendations aren't affected by the rest of the household.

## Voice Search and Control

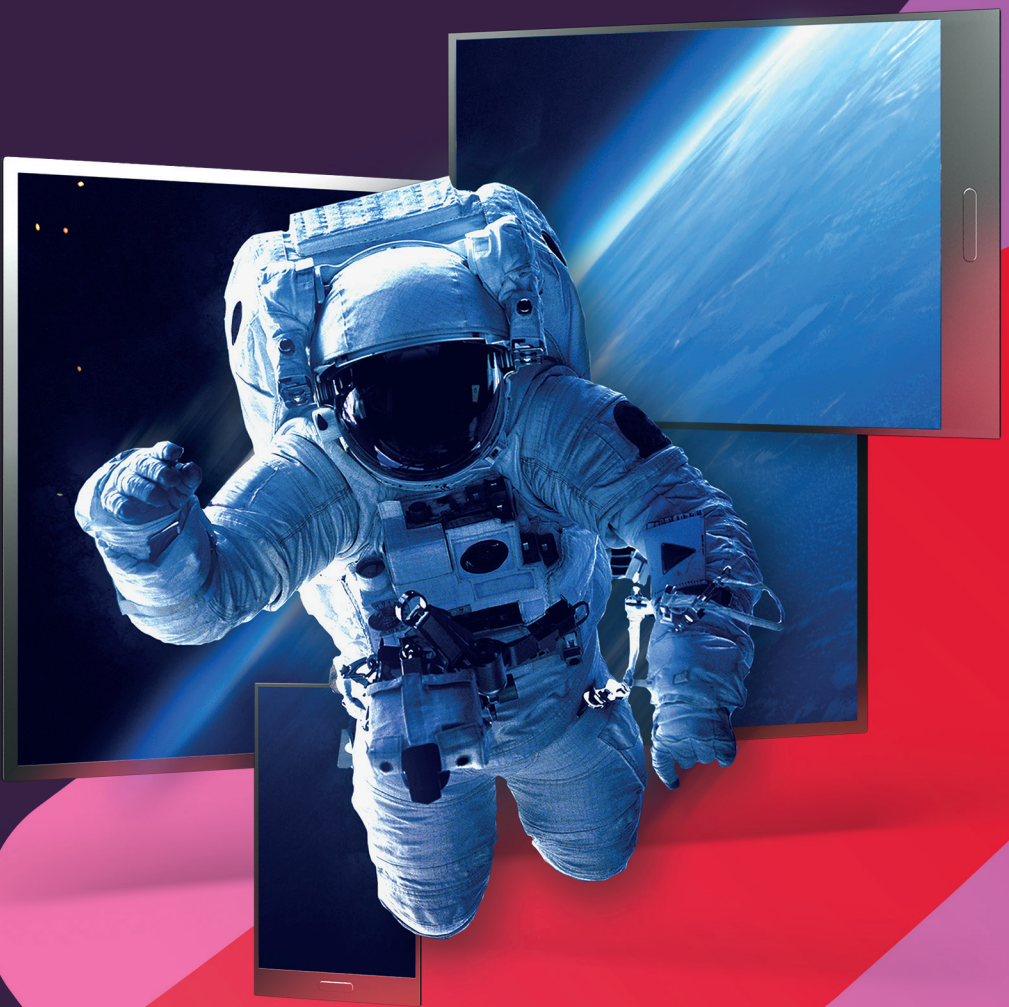

Say it, see it. Hold  on your Virgin TV 360 remote to quickly find a programme, open apps like iPlayer, or hop to a channel.

## TV to go

Stream your socks off on your tablet or mobile, in another room at home or on the go, with the boosted Virgin TV Go app. And with out-of-home streaming, downloads, and shared pause points, nowhere's off limits.

## Startover

Missed the first five minutes of your favourite soap? With Startover, you can go from the top at the touch of a button.

## Look sharp

All our Virgin TV 360 boxes, including Mini boxes, are 4K-ready as standard. Enjoy pixel-packed viewing on channels including Virgin TV Ultra HD and BT Sport Ultimate with Maxit TV.
